What It's All About

C.H.A.N.C.E. was created for the sole purpose of helping others and creating a better world by following these three simple ideas:

1) Provide funding for other foundations and organizations dedicated to a certain cause(s) so that they may continue their good deeds.

2) Teach others about the importance of volunteering and provide information on where to volunteer in the hopes of enlarging the percent of the population that currently participates in community service related opportunities.

3) Shop and Play. Inform others about the items they can purchase and the games or activities they can play that will provide money, necessities, or other items to those in need.
